Calgary, AB T2R 0A8

Attention: Ramona Sladic, Secretary of the Board

Dear Ms. Sladic,

**Re: Enbridge Pipelines Inc.
Mainline Tolling Settlement and Final Toll Application**

Enclosed for filing with the Commission of the Canada Energy Regulator (the "Commission" or "CER") is the Application of Enbridge Pipelines Inc. ("Enbridge") for approval of the Mainline Tolling Settlement ("MTS") for tolls on the Canadian Mainline for the period of July 1, 2021 to December 31, 2028. The Application also seeks approval of final tolls on the Canadian Mainline from July 1, 2021 to the month in which the new tolls calculated in accordance with the MTS take effect following MTS approval.

The MTS is the product of nearly two years of negotiations between Enbridge and stakeholders, with engagement commencing in late January 2022 and culminating with a vote of the Representative Shipper Group to approve the MTS on December 14, 2023. The MTS negotiations were conducted in accordance with the Commission's *Revised Guidelines for Negotiated Settlements of Traffic, Tolls and Tariffs*. The Application outlines the MTS negotiation process and the support obtained for its implementation and approval by the CER. Enbridge is not aware of outstanding concerns or objections with respect to the MTS and believes that all parties having an interest in Enbridge's traffic, tolls and tariffs were afforded a fair opportunity to participate and have their interests recognized and appropriately weighed during the course of the MTS negotiations.

Enbridge submits that the tolls that would result from the approval of the MTS as well as the final tolls requested in the Application are just and reasonable and not unjustly discriminatory.

In making this filing, Enbridge is concurrently providing notice of the filing to Enbridge Mainline shippers and other interested parties, as well as tariff subscribers.

If you have any questions concerning this application, please contact the undersigned.

Sincerely,

Kristi Millar
Senior Legal Counsel
