Enbridge, a North American energy delivery leader, was established in 1949 and exists to fuel people’s quality of life.

We move a very large slice of North America’s oil, natural gas and natural gas liquids, safely and reliably. We operate North America’s premium natural gas transmission franchise, crude oil and liquids pipeline business, and natural gas utility business.

These activities deliver a variety of economic benefits to multiple American states—and these aspects of our operations also fuel people’s quality of life, whether they’re:

- well-paying jobs in towns and cities;
- tax revenue that can help build schools, hospitals and roads;
- procurement spending that stimulates local economies; or
- grants and volunteer labor for community-strengthening projects.

As the world’s population grows, we’ll need all forms of energy—crude oil, natural gas, renewables—to meet rising global energy demand. As a company with both pipelines and wind turbines, Enbridge is delivering energy security and driving transformation toward a lower-carbon economy.

We’re proud to deliver economic benefits in the states where we do business.
Energy assets, operations and projects

Enbridge’s operations, projects, and/or asset ownership interests in Texas include:

- The **Big Foot, Heidelberg, Neptune Oil and Stampede** offshore crude oil pipelines in the Gulf of Mexico;
- The **249-MW Chapman Ranch Wind Project** in Nueces County;
- The **Cleopatra, Destin, Garden Banks, Magnolia, Manta Ray, Mississippi Canyon, Nautilus, Neptune Gas, Okeanos, Shenzi Lateral and Walker Ridge** pipelines, 11 active offshore natural gas gathering and FERC-regulated natural gas transmission pipelines in the Gulf of Mexico;
- Extensive **DCP Midstream** natural gas gathering lines, natural gas processing facilities, natural gas fractionation facilities, natural gas storage facilities and natural gas liquids (NGL) pipelines across the state;
- The **Energy Transfer Crude Oil Pipeline (ETCOP)** which delivers crude oil about 788 miles from Patoka, IL to Nederland, TX;
- The **Gray Oak** crude oil pipeline, which travels 850 miles from the Permian Basin in West Texas and New Mexico, and the Eagle Ford production region in South Texas, to market centers in Corpus Christi and Freeport;
- The **Houston Oil Terminal** project in the Houston region, to be fully integrated into the Seaway system; the location supports up to 15 million barrels of tankage and is expected to be in service in 2022;
- The **110-MW Keechi Wind Project** in Jack County;
- The **203-MW Magic Valley I Wind Farm** near Harlingen;
- Market Hub Partners’ **Moss Bluff Gas Storage**, a salt cavern natural gas storage facility in Liberty County;
- The **Seaport Oil Terminal (SPOT)** project in the Houston area, to provide direct loading capabilities into Very Large Crude Carriers (VLCCs) with a design loading rate of 85,000 barrels per hour;
- The **Seaway Pipeline** which travels from Cushing, OK to a terminal in Freeport, where it serves Gulf Coast refineries;
- The **Seaway Twin/Loop Crude Pipeline** which also travels from Cushing, OK to a terminal in Freeport, where it serves Gulf Coast refineries;
- The **Seaway to Beaumont/Port Arthur Crude Pipeline** which travels from Houston to Beaumont/Port Arthur and provides access to the Gulf Coast’s heavy oil refining capabilities;
- The **Texas COLT** project, a deepwater crude oil export facility to be located off the coast of Freeport, encompassing an onshore tank farm, an offshore platform and two offshore loading single-point mooring buoys for Very Large Crude Carriers (VLCCs); Texas COLT will remain an option to be pursued should the market demand warrant;
- The **Texas Eastern Transmission** natural gas pipeline, which connects Texas and the Gulf Coast with high-demand markets in the Mid-Atlantic and Northeast;

For more detailed information on Enbridge’s infrastructure, projects and/or community investment activity in Texas, please visit our online interactive map at Enbridge.com/map

**Legend**

- bpd – barrels per day
- Bcf/d – billion cubic feet per day
- Bcf – billion cubic feet
- NGL – natural gas liquids
- MW – megawatt
2019 economic benefits at a glance

Our workforce
Enbridge’s people live and work in communities like yours as colleagues, neighbors and friends. Much of the salary earned by Enbridge employees is injected directly into the local and state economies.

We have a workforce of about 13,000 people, primarily in the United States and Canada, with major American offices in Houston, Duluth, MN, and Superior, WI.

Tax revenue
Enbridge’s presence in the community fuels quality of life through ongoing tax revenue. We pay property taxes on our pipelines and related facilities—such as terminals, storage facilities, pump stations, compressor stations, and energy generation facilities—as well as sales-and-use tax, corporate income tax and other taxes, including payroll tax, fuel tax, and excise tax.

This revenue can be used for schools, infrastructure (roads and bridges), health and wellness, recreation, transportation and other services that help strengthen the fabric of the community.

Economic spinoffs*
Enbridge’s ongoing operations, and planned projects, continue to stimulate local and regional economies. Through procurement spending, we’re helping to create indirect employment, support local businesses, and establish economic spinoffs.

Our capital expenditures include such items as pipe steel, equipment purchases and replacement, system integrity-related investments, and capital leases. Meanwhile, our operating and administrative expenditures include such items as maintenance costs, equipment leases, power consumption, and field personnel salaries and wages.

Community investment
Enbridge is committed to supporting and strengthening the communities near our pipelines and facilities, and being a good neighbor is very important to us. Every year across North America, we support thousands of not-for-profit agencies whose initiatives align with one or more of our three focus areas—health and safety, environment, and community.

- Enbridge’s various employee-driven United Way campaigns from across the U.S. and Canada help sustain community outreach, poverty reduction, and educational initiatives being coordinated by United Way chapters near Enbridge’s projects and operations. Our United Way campaign totals include employee donations, special events, and corporate matching.

- Through the Our Community Partners program, Enbridge employees volunteer time for causes they care about; in recognition of their efforts, we offer in volunteer grants to organizations in the U.S. and Canada.

- Our Helping Hands in Action program awards grants and matching gifts to charitable organizations, and organizes hundreds of employee-led projects each year focused on improving quality of life in communities in the U.S. and Canada.

Enbridge’s economic impact on Texas
Enbridge is North America’s premier energy infrastructure company, transporting 25% of the crude oil produced in North America and moving about 20% of all natural gas consumed in the United States.

**Liquids pipelines**
Enbridge operates the world’s longest and most complex crude oil and liquids transportation system, with about 17,000 miles of active pipe across North America. That includes about 8,600 miles of active pipe in the U.S.

- 3M Barrels of crude and liquids delivered daily, on average
- 62% of U.S.-bound Canadian crude production
- 34% of total U.S. crude imports

**Natural gas transmission and midstream**
Unrivalled in the industry due to their scale, scope and connectivity, Enbridge’s natural gas transmission and midstream pipeline assets cover about 24,500 miles in 31 American states, five Canadian provinces and offshore in the Gulf of Mexico.

- 18.3B cubic feet per day (Bcf/d) of natural gas transported
- 158.9B cubic feet (Bcf) of net working storage through our natural gas transmission
- 625K bpd of NGLs produced by DCP Midstream, a 50-50 JV between Enbridge and Phillips 66

**Natural gas utilities**
Enbridge Gas Inc. is North America’s largest natural gas utility by throughput and third-largest by customer count, serving about 12 million people through 3.8 million meter connections in Ontario and Quebec.

- 2.3B cubic feet per day (Bcf/d) of gas distributed to residential, commercial and industrial customers
- 148,800 km 92,500 miles of gas distribution mainlines and service lines
- 278.7B cubic feet (Bcf) of net working storage through our natural gas distribution operations

**Renewable energy**
Since 2002, we’ve committed more than $6 billion in capital to renewable energy and power transmission projects currently in operation or under construction. Our green energy portfolio includes 20 wind farms, 4 solar energy operations, 5 waste heat recovery facilities and 1 geothermal project, and we’re expanding our presence in European offshore wind.

- 3,600 MW GROSS
- 1,750 MW NET

Generate enough green energy (based on net figures) to meet electricity needs of*

- 700K homes

* projects currently in operation
The big picture:
Connecting supply with demand

Enbridge is a global energy infrastructure leader. Our diversified assets are balanced between natural gas and oil, connecting key supply basins and demand markets across North America.
