

Enbridge's economic impact on Louisiana

At Enbridge, our goal is to be the first-choice energy delivery company in North America and beyond – and for more than 75 years, we've delivered the energy that fuels quality of life.

We move about 30% of the crude oil produced in North America, we transport nearly 20% of the natural gas consumed in the U.S., and we operate North America's largest natural gas utility by consumer count. We were an early investor in renewable energy, and we have a growing offshore wind portfolio.

These activities **deliver a variety of economic benefits to multiple states**—and these aspects of our

operations also fuel people's quality of life, whether they're:

- **well-paying jobs** in towns and cities;
- **tax revenue** that can help build schools, hospitals and roads;
- **procurement spending** that stimulates local economies; or
- **grants and volunteer labor** for community-strengthening projects.

As the world's population grows, we'll need all forms of energy to meet rising global demand. As a diversified energy company, we are uniquely positioned to help accelerate the global energy evolution, and we're doing it in ways that are ethical,

sustainable and socially responsible.

We also recognize the importance of a secure, reliable and affordable supply of energy, which we deliver every day through our core businesses.

The energy evolution requires a practical approach. That's why we're committed to lowering emissions while meeting growing energy demand; supporting our customers today while anticipating their needs tomorrow; and developing new energy sources while keeping energy costs in check.

We're proud to deliver economic benefits in the states where we do business.

Energy assets, operations and projects

Enbridge's operations, projects, and/or asset ownership interests in Louisiana include:

- The **Big Foot, Heidelberg, Neptune Oil, Stampede** and **Vito Oil** offshore oil pipelines in the Gulf of Mexico.
- The **Bobcat Gas Storage** salt-cavern storage facility in St. Landry Parish, with 20.3 Bcf of net working storage.
- The **Canyon Gathering System** project, a 12-inch-diameter offshore gathering line traveling 60 miles with expected capacity of 125 MMcf/d, which is expected to enter service in 2029; Enbridge announced in late 2025 that it would extend the system to a total of 118 miles to serve both the Tiber-Guadalupe and Kaskida developments planned by bp (Phase 2 ISD of 2030).
- The **Canyon Oil Pipeline System** project, a 24-to-26-inch-diameter offshore line traveling 137 miles with expected capacity of 200,000 bpd, expected to enter service in 2029; Enbridge announced in late 2025 that it would extend the system to a total of 210 miles to serve both the Tiber-Guadalupe and Kaskida developments planned by bp (Phase 2 ISD of 2030).
- The **Cleopatra, Destin, Garden Banks, Magnolia, Manta Ray, Mississippi Canyon, Nautilus, Neptune Gas, Okeanos, Shenzi Lateral, Vito Gas** and **Walker Ridge** pipelines, offshore natural gas gathering or FERC-regulated gas transmission pipelines in the Gulf of Mexico.
- **DCP Midstream** onshore and offshore natural gas gathering lines in various parts of the state (DCP Midstream is a JV between Enbridge and Phillips 66).
- **DCP Midstream** natural gas liquids (NGL) pipelines in the western portion of the state (DCP Midstream is a JV between Enbridge and Phillips 66).
- **DCP Midstream** natural gas processing facilities in and around the New Orleans area (DCP Midstream is a JV between Enbridge and Phillips 66).

For more detailed information on Enbridge's infrastructure, projects and/or community investment activity in Louisiana, please visit our online interactive map at [Enbridge.com/map](https://www.enbridge.com/map)

- **DCP Midstream** natural gas liquids (NGL) fractionation facilities in St. Charles Parish and Terrebonne Parish (DCP Midstream is a JV between Enbridge and Phillips 66).
- The **Delfin LNG** deepwater port project for Floating Liquefied Natural Gas (FLNG) vessels off the coast of Grand Chenier, LA, which is designed to produce 13.3 tonnes of LNG per year and enter service in 2027; Enbridge has a 5% interest in Delfin.
- The Market Hub Partners **Egan Gas Storage** salt-cavern storage facility in Acadia Parish, which has 19.8 Bcf of net working storage.
- The **Energy Transfer Crude Oil Pipeline (ETCOP)**, which crosses Louisiana en route from Patoka, IL to Nederland, TX, traveling 742 miles with an average annual capacity of 470,000 bpd.
- The **Southeast Supply Header** natural gas pipeline, linking onshore natural gas supply basins of East Texas and Northern Louisiana to Southeast markets; the 287-mile line crosses southern Mississippi and has a peak day capacity of 1.1 Bcf/d; Enbridge owns 50% of SESH. A **\$50M expansion** of SESH was announced on Aug. 1, 2025.
- The **Sparta Gas Pipeline** project, a 10-inch-diameter offshore gathering line traveling 17 miles with expected capacity of 30 MMcf/d, which is expected to enter service in 2028.
- The **Sparta Oil Pipeline** project, an 18-inch-diameter offshore line traveling 60 miles with expected capacity of 86,000 bpd, expected to enter service in 2028.
- The **St. James Development Project** near St. James, a brownfield joint development project to develop a deep-water crude and refined products terminal.
- The **Texas Eastern Transmission** natural gas pipeline, which travels more than 8,500 miles, moves more than 12 Bcf/d of natural gas, and crosses Louisiana as it connects Texas and the Gulf Coast with high-demand markets in the Mid-Atlantic and Northeast.

Enbridge's people live and work in communities like yours as colleagues, neighbors and friends. Much of the salary earned by Enbridge employees is injected directly into the local and state economies.

	Louisiana	USA
Permanent and temporary employees, and contingent workers , at year's end	189	9,132
Base pay to permanent and temporary employees, and contingent workers	\$16.1M	\$896.1M

Enbridge's presence in the community fuels quality of life through ongoing tax revenue. We pay property taxes on our pipelines and related facilities—such as terminals, storage facilities, pump stations, compressor stations, and energy generation facilities—as well as sales-and-use tax, corporate income tax and other taxes, including payroll tax, fuel tax, and excise tax.

	Louisiana	USA
Property tax	\$21.3M	\$705.3M
Other taxes	\$4.5M	\$126.4M
Corporate income tax	\$3.7M	\$420.6M
Total		\$1.25B

Enbridge's ongoing operations, and planned projects, continue to stimulate local and regional economies. Through procurement spending, we're helping to create indirect employment, support local businesses, and establish economic spinoffs.

	Louisiana	USA
Capital expenditures	\$74M	\$4.42B
Operating and admin expenditures	\$123M	\$4.66B

Enbridge's economic impact on Louisiana

Enbridge is committed to supporting and strengthening the communities near our pipelines and facilities, and being a good neighbor is very important to us. Every year across North America, we support thousands of not-for-profit organizations whose initiatives align with one or more of our three focus areas—health and safety, environment, and community—through corporate donations, strategic partnerships and sponsorships.

A leader in energy delivery

Enbridge is North America's premier energy infrastructure company, transporting about **30%** of the crude oil produced in North America and moving about **20%** of all natural gas consumed in the United States.

Liquids pipelines

Enbridge operates the world's longest and most complex crude oil and liquids transportation system, with about **18,085 miles** of active pipe across North America. That includes about **9,619 miles** of active pipe in the U.S.

5.8M

Barrels of crude and liquids delivered daily, on average

75%

of American refining capacity connection

99.9999%

safe delivery record over the past decade

Natural gas transmission and midstream

Unrivaled in the industry due to their scale, scope and connectivity, Enbridge's natural gas transmission and midstream pipeline assets cover about **70,272 miles** (including assets owned and operated by DCP Midstream, a joint venture between Enbridge and Phillips 66, or **19,372 miles** excluding DCP Midstream) across 31 American states, 4 Canadian provinces and offshore in the Gulf of Mexico.

24.5B

cubic feet per day (Bcf/d) of natural gas transported

271.1B

cubic feet (Bcf) of net working storage through our gas transmission operations

495K

bpd of NGLs (Y-grade to market) produced by DCP Midstream, an Enbridge JV

Natural gas utilities

Enbridge Gas is North America's largest natural gas utility franchise by throughput, serving **7 million customers** in Ohio, Ontario, Utah, North Carolina, Wyoming, Idaho and Quebec. Enbridge Gas has been delivering energy for more than 175 years.

9.3B

cubic feet per day (Bcf/d) of gas delivery capacity for residential, commercial and industrial customers

196,229 miles

of gas transportation/distribution mainlines and service lines

351.6B

cubic feet (Bcf) of net working storage through our natural gas distribution operations

Renewable energy

Since 2002, we've committed more than **\$8 billion** in capital to renewable energy and power transmission projects currently in operation or under construction. Our green energy portfolio includes **23** wind farms, **17** solar energy operations and **1** geothermal project, and we're expanding our presence in European offshore wind.

7,238 ^{MW GROSS}

of zero-emission energy generated

Generate enough green energy (based on net figures) to meet electricity needs of*

1.9M homes

* Estimated numbers of households powered calculated using regional energy consumption data: [Energy Consumption - U.S. homes](#) and [Energy Consumption - Canadian homes](#).

The big picture: Connecting supply with demand

Enbridge is a global energy infrastructure leader. Our diversified assets are balanced between natural gas and oil, connecting key supply basins and demand markets across North America.
