

Enbridge's economic impact on Ontario

At Enbridge, our goal is to be the first-choice energy delivery company in North America and beyond – and for more than 75 years, we've delivered the energy that fuels quality of life.

We move about 30% of the crude oil produced in North America, we transport nearly 20% of the natural gas consumed in the U.S., and we operate North America's largest natural gas utility by consumer count. We were an early investor in renewable energy, and we have a growing offshore wind portfolio.

- These activities **deliver a variety of economic benefits to multiple**

Canadian provinces and territories – and these aspects of our operations also fuel people's quality of life, whether they're:

- **well-paying jobs** in towns and cities;
- **tax revenue** that can help build schools, hospitals and roads;
- **procurement spending** that stimulates local economies; or
- **grants and volunteer labor** for community-strengthening projects.

As the world's population grows, we'll need all forms of energy to meet rising global demand. As a diversified energy company, we are uniquely positioned to help accelerate the global energy evolution, and we're doing it in ways that are ethical,

sustainable and socially responsible.

We also recognize the importance of a secure, reliable and affordable supply of energy, which we deliver every day through our core businesses.

The energy evolution requires a practical approach. That's why we're committed to lowering emissions while meeting growing energy demand; supporting our customers today while anticipating their needs tomorrow; and developing new energy sources while keeping energy costs in check.

We're proud to deliver economic benefits in the Canadian provinces and territories, and the U.S. states, where we do business.

Energy assets, operations and projects

Enbridge's operations, projects, and/or asset ownership interests in Ontario include:

- The 15-MW **Amherstburg II Solar Project**, near Amherstburg.
- The **Dawn Hub** natural gas trading hub and storage facility, near Sarnia, whose 284.5 billion cubic feet (Bcf) of high-deliverability storage make it the largest such underground facility in Canada.
- The **Dawn to Parkway Transmission Pipeline**, a system of four parallel natural gas transmission lines traveling about 257 km (160 miles) from Sarnia to Mississauga that moves up to 6.5 Bcf/d of gas through Ontario.
- **Enbridge Gas Inc.**, North America's largest natural gas utility by volume, which distributes 6 Bcf/d to Ontario communities. Enbridge Gas and its affiliates serve about 75% of Ontario residents, and have 3.9 million meter connections in Ontario and Quebec.
- The 98.9-MW **Greenwich Wind Farm Project**, near Thunder Bay on the north shore of Lake Superior. Enbridge has a 51% ownership interest in Greenwich.
- The **Hagar LNG Liquefaction and**

Storage Facility, near the community of Hagar, with 0.6 Bcf of onsite storage.

- The **Mainline** pipeline system, which delivers more than 3 million barrels of oil every day – consisting of three transportation pipelines (**Lines 7, 8 and 9**) between the Ontario-Michigan border and Enbridge's Mill Grove Junction station, near Hamilton; and one line (**Line 9**) from Mill Grove Junction to the Ontario-Quebec border.
- The **Markham Power-to-Gas Production Plant** in Markham, operated in partnership with Cummins Inc., which produces up to 12,000 cubic meters of clean hydrogen a day, and is part of an Enbridge Gas H2 blending pilot project.
- **Niagara Gas Transmission Ltd.**, an Enbridge subsidiary that owns four gas distribution and transportation pipelines in Lambton County, Ottawa and Cornwall.
- The 189.8-MW **Ontario Wind Power Project**, in Kincardine near Lake Huron, consisting of the **Cruickshank** and **Underwood** wind farms.
- Renewable natural gas (RNG) projects at nine Ontario locations, respectively operated in partnership with **Hamilton Woodward WWTP** (Hamilton, which

produces 1.6 million cubic meters of RNG), **StormFisher** (London, 3 million), the City of Toronto (the **Dufferin** facility, Toronto, 3.3 million), **Stanton Farms** (Stratford, 4 million), **Project London** (London, 4 million), **Niagara Landfill** (Niagara Falls, 24 million), **Disco Road** (Toronto, 5 million), **Twin Creeks Landfill** (Watford, 52 million) and **Ridge Landfill** (Chatham-Kent, 24 million).

- The **Sarnia Airport Pool** natural gas storage facility, a depleted reserve asset in Lambton County with 5.94 Bcf of net working storage, that's strategically connected to the Dawn Hub.
- The 80-MW **Sarnia Solar Project**, near Sarnia, in which Enbridge has a 51% ownership stake.
- **St. Clair Pipelines L.P.**, a wholly-owned Enbridge partnership that owns two natural gas transportation pipelines (the St. Clair River Crossing and the Bluewater Pipeline) in Lambton County.
- The **St. Clair Pool** natural gas storage facility, a depleted reservoir storage asset in Lambton County with 1.18 Bcf of net working storage, that's strategically connected to the Dawn Hub.
- The 98.9-MW **Talbot Wind Energy Project**, near Chatham-Kent, in which Enbridge has a 51% ownership stake.
- The **Tecumseh** natural gas storage facility, located north of the Dawn Hub.
- The 5-MW **Tilbury Solar Project**, near Tilbury, in which Enbridge has a 51% ownership stake.
- The **Vector Pipeline**, which transports as much as 1.745 Bcf/d of natural gas from Joliet, IL to parts of Indiana and Michigan, terminating near Sarnia. Enbridge has a 60% ownership interest in Vector.

For more detailed information on Enbridge's infrastructure, projects and/or community investment activity in Ontario, please visit our online interactive map at [Enbridge.com/map](https://www.enbridge.com/map)

2025 economic benefits at a glance

Our workforce

Enbridge's people live and work in communities like yours as colleagues, neighbors and friends. Much of the salary earned by Enbridge employees is injected directly into the local and provincial/territorial economies.

We have a workforce of more than 16,000 people, primarily in Canada and the United States, with major Canadian offices in Calgary, Toronto, Edmonton and Chatham, ON.

	Ontario	Canada
Permanent and temporary employees, and provisioned contractors, at year's end	4,180	8,591
Total wages paid to permanent and temporary employees	\$420M	\$950M

Tax revenue

Enbridge's presence in the community fuels quality of life through ongoing tax revenue. We pay property taxes on our pipelines and related facilities—such as terminals, storage facilities, pump stations, compressor stations, and energy generation facilities—as well as corporate income tax and other taxes, including carbon tax, payroll tax, fuel tax, and excise tax.

This revenue can be used for schools, infrastructure (roads and bridges), health and wellness, recreation, transportation and other services that help strengthen the fabric of the community.

	Ontario	Canada
Property tax	\$153.6M	\$366.8M
Other taxes		\$1.8M
Corporate income tax	\$45.6M	\$539.5M
Total		\$908.3M

Economic spinoffs*

Enbridge's ongoing operations, and planned projects, continue to stimulate local and regional economies. Through procurement spending, we're helping to create indirect employment, support local businesses, and establish economic spinoffs.

Our capital expenditures include such items as pipe steel, equipment purchases and replacement, system integrity-related investments, and capital leases. Meanwhile, our operating and administrative expenditures include such items as maintenance costs, equipment leases, power consumption, and field personnel salaries and wages.

	Ontario	Canada
Capital expenditures	\$1.29B	\$2.97B
Operating and admin expenditures	\$1.49B	\$3.44B

* All amounts are based on annual forecasting estimates which, while reasonably accurate, may not align precisely with procurement spending totals reported elsewhere by Enbridge and may not reflect actual amounts spent.

Community investment

Enbridge is committed to supporting and strengthening the communities near our pipelines and facilities, and being a good neighbor is very important to us. Every year across North America, we support thousands of not-for-profit organizations whose initiatives align with one or more of our three focus areas – health and safety, environment, and community – through corporate donations, strategic partnerships and sponsorships.

- Enbridge employees are passionate about making a difference in the communities where we live and work. The **Enbridge Fueling Futures** employee volunteering and giving program amplifies their efforts by offering donation matching, volunteer grants and paid time off to volunteer.
- Enbridge's annual employee-driven **United Way** campaigns across the U.S. and Canada support community outreach, poverty reduction, and educational initiatives led by United Way chapters near Enbridge's projects and operations. Our United Way campaign totals include employee donations, special events, and corporate matching.
- In 2025, through our **Safe Community First Responder Program**, we donated **\$1.4 million** to **109** Canadian emergency responder organizations located near Enbridge's projects and operations; these donations are earmarked for safety equipment, professional training or safety education programming that keeps communities safe.

	Ontario	Canada
Community initiatives	\$7,031,300	\$13.7M
		North America
United Way		\$5.9M

A leader in energy delivery

Enbridge is North America's premier energy infrastructure company, transporting about **30%** of the crude oil produced in North America and moving about **20%** of all natural gas consumed in the United States.

Liquids pipelines

Enbridge operates the world's longest and most complex crude oil and liquids transportation system, with about **29,104 km (18,085 miles)** of active pipe across North America. That includes about **13,624 km (8,466 miles)** of active pipe in Canada.

5.8M

Barrels of crude and liquids delivered daily, on average

75%

of American refining capacity connection

99.9999%

safe delivery record over the past decade

Natural gas transmission and midstream

Unrivaled in the industry in scale, scope and connectivity, Enbridge's natural gas transmission and midstream pipeline assets cover about **113,092 km or 70,272 miles** (including assets owned and operated by DCP Midstream, a joint venture between Enbridge and Phillips 66, or **31,176 km/19,372 miles** excluding DCP Midstream assets) across 31 American states, 4 Canadian provinces and offshore in the Gulf of Mexico.

24.5B

cubic feet per day (Bcf/d) of natural gas transported

271.1B

cubic feet (Bcf) of net working storage through our natural gas transmission operations

495K

bpd of NGLs (Y-grade to market) produced by DCP Midstream, an Enbridge JV

Natural gas utilities

Enbridge Gas is North America's largest natural gas utility franchise by throughput, serving **7 million customers** in Ohio, Ontario, Utah, North Carolina, Wyoming, Idaho and Quebec. Enbridge Gas has been delivering energy for more than 175 years.

9.3B

cubic feet per day (Bcf/d) of gas delivery capacity for residential, commercial and industrial customers

315,799 km

of gas transportation/distribution mainlines and service lines

351.6B

cubic feet (Bcf) of net working storage through our natural gas distribution operations

Renewable energy

Since 2002, we've committed about **\$12 billion** in capital to renewable energy and power transmission projects currently in operation or under construction. Our green energy portfolio includes **23** wind farms, **17** solar energy operations and **1** geothermal project, and we're expanding our presence in European offshore wind.

7,238 MW GROSS

4,108 MW NET

of zero-emission energy generated

Generate enough green energy (based on net figures) to meet electricity needs of*

1.9M homes

* Estimated numbers of households powered calculated using regional energy consumption data: [Energy Consumption - U.S. homes](#) and [Energy Consumption - Canadian homes](#).

The big picture: Connecting supply with demand

Enbridge is a global energy infrastructure leader. Our diversified assets are balanced between natural gas and oil, connecting key supply basins and demand markets across North America.
