Forward Looking Information

This presentation includes certain forward looking statements and information (FLI) to provide potential investors and shareholders of Enbridge Inc. (Enbridge or the Company) with information about Enbridge and its subsidiaries and affiliates, including management’s assessment of their future plans and operations, which FLI may not be appropriate for other purposes. FLI is typically identified by words such as “anticipate”, “expect”, “project”, “estimate”, “forecast”, “plan”, “intend”, “target”, “believe”, “likely” and similar words suggesting future outcomes or statements regarding an outlook. All statements other than statements of historical fact may be FLI. In particular, this presentation contains FLI pertaining to, but not limited to, information with respect to the following: 2019 and future year strategic priorities and guidance; expected EBITDA and expected adjusted EBITDA; expected adjusted earnings and adjusted earnings/share; expected DCF and DCF/share; expected future debt/EBITDA; expectations on sources and uses of funds and sufficiency of financial resources; secured growth projects and future growth, development and expansion program and opportunities; expected benefits of asset dispositions, amalgamations and corporate simplification transactions; closing of announced acquisitions, dispositions and financing transactions, and the timing and impact thereof; future acquisitions and asset sales or other monetization transactions; Mainline Contract Offering and the results and timing thereof; dividend growth and dividend payout expectations; project execution, including capital costs, expected construction and in service dates and regulatory approvals, including but not limited to the Line 3 Replacement Project and rate case proceedings; and system throughput, capacity, expansions and potential future capacity solutions.

Although we believe that the FLI is reasonable based on the information available today and processes used to prepare it, such statements are not guarantees of future performance and you are cautioned against placing undue reliance on FLI. By its nature, FLI involves a variety of assumptions, which are based upon factors that may be difficult to predict and that may involve known and unknown risks and uncertainties and other factors which may cause actual results, levels of activity and achievements to differ materially from those expressed or implied by the FLI, including, but not limited to, the following: the expected supply of, demand for and prices of crude oil, natural gas, natural gas liquids and renewable energy; exchange rates; inflation; interest rates; availability and price of labour and construction materials; operational reliability and performance; customer and regulatory approvals; maintenance of support and regulatory approvals for projects; anticipated in-service dates; weather; governmental legislation; changes in regulations applicable to our businesses; announced and potential acquisitions and dispositions and corporate simplification transactions, and the timing and impact thereof; impact of capital project execution on the Company’s future cash flows; credit ratings; capital project funding; expected EBITDA or expected adjusted EBITDA; expected future cash flows and expected future DCF and DCF per share; estimated future dividends; financial strength and flexibility; debt and equity market conditions, including the ability to access capital markets on favourable terms or at all; cost of debt and equity capital; economic and competitive conditions; changes in tax laws and tax rates; and changes in trade agreements. We caution that the foregoing list of factors is not exhaustive. Additional information about these and other assumptions, risks and uncertainties can be found in applicable filings with Canadian and U.S. securities regulators (including the most recently filed Form 10-K and any subsequently filed Form 10-Q, as applicable). Due to the interdependencies and correlation of these factors, as well as other factors, the impact of any one assumption, risk or uncertainty on FLI cannot be determined with certainty.

Except to the extent required by applicable law, we assume no obligation to publicly update or revise any FLI made in this presentation or otherwise, whether as a result of new information, future events or otherwise. All FLI in this presentation and all subsequent FLI, whether written or oral, attributable to Enbridge or persons acting on its behalf, are expressly qualified in its entirety by these cautionary statements.

Non-GAAP Measures

This presentation makes reference to non-GAAP measures, including adjusted earnings before interest, income taxes, depreciation and amortization (adjusted EBITDA), adjusted earnings/(loss), adjusted earnings/(loss) per share distributable cash flow (DCF) and DCF per share. Management believes the presentation of these measures gives useful information to investors and shareholders as they provide increased transparency and insight into the performance of Enbridge. Adjusted EBITDA represents EBITDA adjusted for unusual, non-recurring or non-operating factors on both a consolidated and segmented basis. Management uses adjusted EBITDA to set targets and to assess the performance of the Company. Adjusted EBITDA represents earnings attributable to common shareholders adjusted for unusual, non-recurring or non-operating factors included in adjusted EBITDA, as well as adjustments for unusual, non-recurring or non-operating factors in respect of depreciation and amortization expense, interest expense, income taxes, noncontrolling interests and redeemable noncontrolling interests on a consolidated basis. Management uses adjusted earnings as another reflection of the Company’s ability to generate earnings. DCF is defined as cash flow provided by operating activities before changes in operating assets and liabilities (including changes in environmental liabilities) less distributions to non-controlling interests and redeemable non-controlling interests and dividends and maintenance capital expenditures, and further adjusted for unusual, non-recurring or non-operating factors. Management also uses DCF to assess the performance of Enbridge and to set its dividend payout target. Reconciliations of forward looking non-GAAP financial measures to comparable GAAP measures are not available due to the challenges and impracticability with estimating some of the items, particularly with estimates for certain contingent liabilities, and estimating non-cash unrealized derivative fair value losses and gains and ineffectiveness on hedges which are subject to market variability and therefore a reconciliation is not available without unreasonable effort.

These measures are not measures that have a standardized meaning prescribed by generally accepted accounting principles in the United States of America (U.S. GAAP) and may not be comparable with similar measures presented by other issuers. A reconciliation of non-GAAP measures to the most directly comparable GAAP measures is available on Enbridge’s website. Additional information on non-GAAP measures may be found in Enbridge’s earnings news releases on Enbridge’s website and on EDGAR at www.sec.gov and SEDAR at www.sedar.com under Enbridge’s profile.
Agenda

- Strategic Position
- First Quarter Results
- Business Update
- Financial Results
- Continuing Priorities

- Strong Organic Growth
Q1 2019 Consolidated Financial Results

For the 3 months ended Mar 31, $ millions

**Adjusted EBITDA**

- 2018: $3,406
- 2019: $3,769 (11% increase)

**DCF**

- 2018: $2,312
- 2019: $2,758 (19% increase)

**Adjusted Earnings**

- 2018: $1,375
- 2019: $1,640 (19% increase)

Q1:

- Adjusted EBITDA: $1.37/share
- DCF: $1.37/share
- Adjusted Earnings: $0.82/share

Strong results driven by solid operating performance across the entire asset base.

Adjusted earnings before interest, taxes, depreciation and amortization (adjusted EBITDA), Adjusted Earnings and Distributable Cash Flow (DCF) are non-GAAP measures. For more information on non-GAAP measures please refer to disclosure in the Q1 earnings release and MD&A available at www.enbridge.com. Adjusted EBITDA is not presented on a $/share basis.
Liquids Business Update

Operational Update

Average Mainline Throughput
(ex-Gretna throughput MMbpd)

- Focused on maximizing throughput and operating efficiencies
- System expected to remain near capacity through 2019

2019: Additional Mainline Optimizations

- Developing solutions to further optimize delivery patterns and manage crude slates
- 50-100kbpd targeted for 2H2019

Record quarterly throughput with further optimizations targeted in 2019
Liquids Business Update

Line 3 Replacement Project

- Critical energy infrastructure replacement
- Canadian construction expected to be complete by end of May 2019
- Wisconsin segment complete and in-service
- North Dakota regulatory and permitting complete
- Minnesota project execution progressing
  - MPUC denies all petitions for reconsideration
  - Construction permit timelines established by State agencies
  - Updated construction schedule being developed
- Targeting project ISD 2H2020

~$9B
Capital cost

Canadian construction target completion May 2019

In service segments to date

Approved MN route; permitting underway

Permitting timeline established; supports issuance by October 28, 2019
Liquids Business Update

Mainline Contract Offering

Design Considerations

- Incorporating feedback from producers (large & small), integrateds, refiners, marketers
- Single Transportation Service Agreement (TSA) that fulfills regulatory requirement for open and fair access

Key Offering Features

- Priority access for contracted volume
- Contract term up to 20 years
- Toll discounts for longer terms and high volume shippers
- Spot capacity reserve of at least 10%
- Equal access for small producers

Advancing shipper discussions on mainline re-contracting terms; open season mid-July
Gas Transmission Business Update

Rate Case Proceedings Update

**Texas Eastern:**
- Section 4 Rate Case filed Nov 2018
- Potential for revenue enhancement with updated cost of service factors
- Progressing towards settlement agreement before end of year

**East Tennessee:**
- Nearing completion of Section 5 Rate Case proceedings
- Section 4 filing likely to be undertaken next year to incorporate updates to all rate making determinants

**Algonquin:**
- Preparing for early stage rate discussions with customers in the coming months

Priority to actively manage rate undertakings to ensure timely and fair return on current and future capital
Gas Transmission Business Update
Growth Opportunities

W. Canada
• T-North and T-South expansions
• Alliance and Aux Sable expansion opportunities
• NGL infrastructure solutions
• Well-positioned to support West Coast LNG

Northeast & New England
• Enhance U.S. northeast connectivity between regional supply and growing power and LDC demand
• Well-positioned to support East Coast LNG

Southeast
• Expansions/extensions to support growing power generation demand

Gulf Coast
• Expansions/extensions to support growing petchem demand
• South Texas assets well positioned to support US Gulf Coast LNG

Enbridge well positioned with existing footprint to participate in LNG growth in North America
Utilities Business Update
Operational Update

Gas Deliveries (Billions of cubic feet)

- Strong Q1 results driven by record volume
- Record storage draws at the Dawn storage hub

Utility Amalgamation

- Effective Jan. 1, 2019
- Significant potential for cost efficiencies
- Potential to earn over 100 bps of excess earnings during 5 year term

1) Daily consumption on a combined basis for Enbridge Gas Distribution and Union Gas.
Utility Growth Outlook

Ontario population growth forecast

- 14 million in 2018
- 18.5 million in 2040

Source: Ontario Ministry of Finance

Growth through community expansions

- Utility growth through new community expansion
  - Supportive new legislation in place
  - 50-70 new expansion communities

Dawn to Parkway system expansion project

- Largest volume franchise serving a rapidly growing market
  - 3.7 million customers
  - Adding ~50K new customers/year

- Successful open season for $0.2B pipeline looping project
  - ~75 mmcf/d of incremental capacity
  - 15 year term; target ISD end of 2021

Low risk regulated business with attractive transparent growth opportunities
$16B of secured, low-risk capital projects drives near term growth outlook

* Rounded, USD capital has been translated to CAD using an exchange rate of $1 U.S. dollar = $1.30 Canadian dollars.
# Q1 2019 Financial Performance

## Consolidated Adjusted EBITDA

<table>
<thead>
<tr>
<th>Adjusted EBITDA</th>
<th>Q1 2018</th>
<th>Q1 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Liquids Pipelines</td>
<td>1,627</td>
<td>1,729</td>
</tr>
<tr>
<td>Gas Transmission and Midstream</td>
<td>1,046</td>
<td>1,040</td>
</tr>
<tr>
<td>Gas Distribution</td>
<td>646</td>
<td>693</td>
</tr>
<tr>
<td>Renewable Power Generation and Transmission</td>

<td>3,406</td>
<td>3,769</td>
</tr>
</tbody>
</table>

**Q1 2019 vs. Q1 2018**

**Liquids Pipelines**
- + Higher throughput and tolls on the Mainline System
- + Higher volumes on Flanagan South and Seaway pipelines
- + Higher Bakken Pipeline volumes
- + Stronger U.S. dollar¹

**Gas Transmission and Midstream**
- + New projects placed into service
- + Stronger U.S. dollar¹
  - Absence of EBITDA from divested assets
  - Integrity expense

**Gas Distribution**
- + Colder weather relative to Q1 2018
- + Higher distribution rates and customer growth; new tolling framework

**Renewable Power Generation and Transmission**
- + Full quarter of Rampion Offshore wind
  - Lower wind resources (US wind farms)

**Energy Services**
- + Wider natural gas and crude oil basis differentials

**Eliminations & Other**
- + Timing of corporate recoveries from business segments
  - Higher settlement losses on enterprise FX hedges¹

---

¹Impact of stronger US dollar on US operations within segment, partially mitigated by offsetting loss on enterprise foreign exchange hedge program reported in Eliminations & Other.

### Q1 2019 vs. Q1 2018

- Adjusted EBITDA drivers noted in previous slide
- Higher financing costs reflecting incremental debt/preferred equity issued since Q1 2018, offset by interest expense savings from debt repayments in the second half of 2018
- Higher current taxes reflect EBIT growth; US tax reform
- Lower distributions to noncontrolling interest, following buy-in of Sponsored Vehicles in Q4 2018
- Increased distributions from Joint Ventures due to favourable business performance and new assets in service
- Incremental shares issued in Nov/Dec 2018 to buy-in Sponsored Vehicles

Adjusted EBITDA and DCF are non-GAAP measures. Reconciliations to GAAP measures can be found in the Q1 earnings release available at www.enbridge.com
Re-affirming 2019 Financial Outlook

<tr>
<td>2019e</td>
<td>$4.30 - 4.60</td>
</tr>
</tbody>
</table>

Q1 STRENGTH
- Energy Services
- Colder weather in Utilities franchise area

Q2-Q4 HEADWINDS:
- Line 3 delay
- Integrity expense
- Other O&A timing

Strong start to 2019, reiterating 2019 guidance range of $4.30 to $4.60/share

---

\(^1\) DCF/share is a non-GAAP measure. Reconciliations to GAAP measures can be found in the Q1 earnings release available at www.enbridge.com.
Significant reduction in leverage has been accomplished strengthening the balance sheet and credit profile.
