Forward-Looking Information

This presentation includes certain forward-looking statements and information (FLI) to provide potential investors and shareholders of Enbridge Inc. (Enbridge or the Company) with information about Enbridge and its subsidiaries and affiliates, including management's assessment of their future plans and operations, which FLI may not be appropriate for other purposes. FLI is typically identified by words such as "anticipate", "expect", "project", "estimate", "forecast", "plan", "intend", "target", "believe", "likely" and similar words suggesting future outcomes or statements regarding an outlook. All statements other than statements of historical fact may be FLI. In particular, this presentation contains FLI pertaining to, but not limited to, information with respect to the following: 2019 and future year strategic priorities and guidance; expected EBITDA and expected adjusted EBITDA; expected adjusted earnings and adjusted earnings/share; expected DCF and DCF/share; expected future debt/EBITDA; expectations on sources and uses of funds and sufficiency of financial resources; secured growth projects and future growth, development, optimization and expansion programs and opportunities; expected closing and benefits of announced acquisitions, dispositions and reorganizations, and the timing thereof; future acquisitions and dispositions or other monetization transactions; Mainline Contract Offering and other open seasons, and the benefits, results and timing thereof; dividend growth and dividend payout expectations; project execution, including capital costs, expected construction and in service dates and regulatory approvals, including but not limited to the Line 3 Replacement Project and rate case proceedings; and system throughput, capacity, expansions and potential future capacity solutions.

Although we believe that the FLI is reasonable based on the information available today and processes used to prepare it, such statements are not guarantees of future performance and you are cautioned against placing undue reliance on FLI. By its nature, FLI involves a variety of assumptions, which are based upon factors that may be difficult to predict and that may involve known and unknown risks and uncertainties and other factors which may cause actual results, levels of activity and achievements to differ materially from those expressed or implied by the FLI, including, but not limited to, the following: the expected supply of, demand for and prices of crude oil, natural gas inquides and renewable energy; exchange rates; inflation; interest rates; availability and price of labour and construction materials; operational regulatory approvals for projects; anticipated in-service dates; weather; governmental legislation; litigation; changes in regulations applicable to our businesses; announced and potential acquisitions, dispositions and reorganization transactions, and the timing and impact thereof; impact of capital project execution on the Company's future cash flows; credit ratings; capital project funding; expected EBITDA or expected adjusted EBITDA; expected future cash flows and expected future DCF and DCF per share; estimated future dividends; financial strength and flexibility; debt and equity market conditions, including the ability to access capital markets on favourable terms or at all; cost of debt and equity capital; economic and competitive conditions; changes in tax laws and tax rates; and changes in trade agreements. We caution that the foregoing list of factors is not exhaustive. Additional information about these and other assumptions, risks and uncertainties can be found in applicable form 10-K and any subsequently filed Form 10-Q, as applicable). Due to the interdependencies and correlation of these factors, as well as other factors, the impact of any one assumption, risk or uncertainty on

Except to the extent required by applicable law, we assume no obligation to publicly update or revise any FLI made in this presentation or otherwise, whether as a result of new information, future events or otherwise. All FLI in this presentation and all subsequent FLI, whether written or oral, attributable to Enbridge or persons acting on its behalf, are expressly qualified in its entirety by these cautionary statements.

Non-GAAP Measures

This presentation makes reference to non-GAAP measures, including adjusted earnings before interest, income taxes, depreciation and amortization (adjusted EBITDA), adjusted earnings/(loss), adjusted earnings/(loss) per share, distributable cash flow (DCF) and DCF per share. Management believes the presentation of these measures gives useful information to investors and shareholders as they provide increased transparency and insight into the performance of Enbridge. Adjusted EBITDA represents EBITDA adjusted for unusual, non-recurring or non-operating factors on both a consolidated and segmented basis. Management uses adjusted EBITDA, as well as adjustments for unusual, non-recurring or non-operating factors in respect of depreciation and amortization expense, income taxes, noncontrolling interests and redeemable noncontrolling interests on a consolidated basis. Management uses adjusted earnings as another reflection of the Company's ability to generate earnings. DCF is defined as cash flow provided by operating activities before changes in operating assets and liabilities (including changes in environmental liabilities) less distributions to non-controlling interests and redeemable non-controlling interests, and further adjusted for unusual, non-recurring or non-operating factors. Management also uses DCF to assess the performance and to set its dividend payout target. Reconciliations of forward-looking non-GAAP financial measures to comparable GAAP measures are not available due to the challenges and impracticability with estimating some of the entities, particularly with estimates for certain contingent liabilities, and estimating non-cash unrealized derivative fair value losses and gains and ineffectiveness on hedges which are subject to market variability and therefore a reconciliation is not available without unreasonable effort.

These measures are not measures that have a standardized meaning prescribed by generally accepted accounting principles in the United States of America (U.S. GAAP) and may not be comparable with similar measures presented by other issuers. A reconciliation of non-GAAP measures to the most directly comparable GAAP measures is available on Enbridge's website. Additional information on non-GAAP measures may be found in Enbridge's earnings news releases on Enbridge's website and on EDGAR at www.sec.gov and SEDAR at www.sec.gov a

Executive Leadership Changes

Guy Jarvis Retiring - EVP Liquids Pipelines

Vern Yu EVP Liquids Pipelines

Q3 Highlights

Delivering strong financial results

- Record Q3 EBITDA
- Expect to exceed the mid-point of 2019 DCF/share guidance range
- Received \$0.4B asset sales proceeds; 4.6x Debt:EBITDA

Optimizing the base business

- Advancing ~100 kbpd Mainline capacity optimizations
- Preparing CER application for Mainline contract offering
- Positive settlement on Texas Eastern rates

Executing the capital program

- Gray Oak and Hohe See in service Q4
- Bakken and Seaway open seasons
- Line 3 regulatory process progressing in Minnesota

Q3 2019 Financial Results Summary

For the 3 and 9 months ended Sep 30, \$ millions

Strong results driven by solid operating performance across the entire asset base

Adjusted earnings before interest, taxes, depreciation and amortization (adjusted EBITDA), Adjusted Earnings and Distributable Cash Flow (DCF) are non-GAAP measures. For more information on non-GAAP measures please refer to disclosure in the Q3 earnings release and MD&A available at <u>www.enbridge.com</u>.

Liquids Business Update Line 3 Replacement Project

Canada

- Reached agreement to place into service Dec 1
 - Immediately enhances safety and reliability of the system
 - Interim surcharge of US\$0.20 per barrel

United States

- Progress on regulatory and permitting milestones
 - Sep 17: MN Supreme Court denies further appeals of Environmental Impact Statement (EIS)
 - Oct 1: MN Public Utilities Commission (MPUC) orders revised EIS with additional spill modelling due within 60 days
 - State agencies continue to advance work in parallel with MPUC process

Line 3 Replacement Canada to be placed into service; Minnesota regulatory & permitting progressing

Line 3 Replacement - Minnesota Project Milestones

Anticipated Sequence of Milestones

Regulatory:							
MPUC	EIS Spill Mode Public Consu	elling & Iltation	EIS Ade Deci	equacy ision	Reinstate CN / RP	MPUC Petitions for Reconsideration	Authorization to Construct
State Permitting:							
Pollution Control Agency			Permit e-file		Finalize Pe	rmitting Work	
Dept of Nat. Resources	Finalize Permitting Work						
Federal Permitting:							
US Army Corp Engineers			Fin	alize Peri	mitting Wor	k	
Construction:							
	TODA	١Y					

Will have more clarity on timing of key regulatory and permitting milestones in the coming months

Liquids Business Update
Incremental WCSB Egress

2019 Mainline Optimizations

- Delivery and receipt point optimization
- Capacity recovery
- Operational flexibility of Line 3 Canada
- ISD: late 2019

Express Pipeline Open Season

- Successful open season
- DRA / pump-station modifications
- ISD: 1Q 2020

Critical near-term incremental egress for WCSB production

Liquids Business Update Incremental Downstream Capacity

Seaway Expansion

- Plan to launch open season for up to 200 kbpd new capacity
- Pump station modifications
- ISD: 2020 / 2022

Bakken Pipeline System

- Open season extended to include HFOTCO
- Potential to increase system capacity up to 1.1 mbpd, subject to shipper commitments
- ISD: early 2021

Gray Oak Pipeline

- Providing tidewater access in Corpus Christi and Freeport
- Capacity of 900 kbpd with contracts
- ISD: 4Q 2019

Expanding Access to U.S. Gulf Coast

Systems well positioned for low cost optimizations to serve demand pull markets in USGC

Liquids Business Update Mainline Fundamentals & Customer Profile

Throughput underpinned by demand pull shippers

Liquids Business Update Mainline Tolling Framework

Stable CTS Hardisty to Mainline tolling **CTS** incentivized capacity increases Chicago joint toll framework benefits 2011 1995 Optimizations **Incentive Tolling** Expansions Agreements (ITA) Annual Toll increase 2011 - 2019 **Current Competitive Term Contract Shipper Benefits Toll Settlement (CTS)** Offering **Capacity Optimization** increase Incentives 2011 - 2019 Cost Management Incentives **Toll Certainty Crude Quality Levels** 2011 2019 **Priority Access** 2011 2019 X Available

Contract framework fully aligns with shipper interests

Liquids Business Update Attractiveness of Mainline Offering

2021e WCSB producer

netbacks

Long term contract alternatives

- Take-or-pay contracts
- Requirements contracts
- Strongest netback for WCSB crude
 - Attractive toll; consistent with CTS levels
 - Discounts for longer term and higher volume
 - Toll certainty
- Small producers welcome
 - Minimum volume 2,200 bpd
- Reserved spot capacity
 - Minimum 325,000 bpd (10%)
 - Unutilized contract capacity available for spot

Average tolls in-line with CTS

Mainline contract offering is competitive, was negotiated with industry, and has strong support

- 1) WCS Netback from Chicago calculated as Maya/USGC pricing at \$49/barrel plus illustrative pipeline toll of \$3/bbl from USGC, less Enbridge toll
- (2) WCS Netback from USGC calculated as Maya/USGC pricing at \$49/barrel, less third party toll
- 3) WCS Netback from USGC on rail calculated as Maya/USGC pricing at \$49/barrel, less rail rate

Liquids Business Update Contracting Next Steps

Canada Energy Regulator (CER) Process

- In Sep 2019, the CER determined that Enbridge needs approval of the offering before conducting an open season
- Preparing application and related evidence
- Enbridge will file as soon as practical
- Application will address public interest and demonstrate strong support for the offering
 - Open access
 - Just & reasonable tolls
 - Responsive to customer needs
 - Supports WCSB netbacks

Indicative Timeline

Enbridge remains committed to contracting the Mainline

Gas Transmission Business Update Rate Case Proceedings

2nd largest natural gas pipeline in the U.S.

Texas Eastern

\$5.6B

Rate Base

Texas Eastern:

- Section 4 Rate Case filed Nov 2018
- Filed rate case settlement agreement with FERC on October 28, 2019
- System rate increase provides modest EBITDA upside

East Tennessee:

- Filed settlement agreement in May and received FERC approval on Oct 1, 2019; immaterial reduction to EBITDA
- Rate case filing required by June 30, 2020; Will reflect updated rate base and other cost of service increases

Algonquin:

 Commenced rate discussions with customers

Actively managing rate filings to ensure timely and fair return on current and future capital

Gas Transmission Business Update LNG Business Development

- Assets well-positioned along the U.S. Gulf Coast to successfully compete for LNG opportunities
- Serving 2 operational LNG facilities and several other facilities at various stages of development
 - Announced MOU with NextDecade to explore joint development opportunities for supply to Rio Grande LNG facility

Stratton Ridge	Texas Eastern mainlineAccess to Freeport LNG	US\$0.2B	In-service
Cameron Extension	 Texas Eastern expansion To serve Calcasieu Pass LNG 	US\$0.2B	4Q21
Venice Extension	Venice lateral		2022

Focus on US Gulf Coast Markets

Gas Transmission systems in high demand and well positioned for continued LNG demand pull growth

Utility Business Update

Amalgamation Progress

• Synergy realization on track

2019 Rate Application

- Rates approved by Ontario Energy Board (OEB) in September
- April 1, 2019 retroactive effective date

System modernization/expansions

- \$0.4B growth projects announced in 2019
- Significant additional community expansion opportunities under development

Utility Expansion Opportunities

Constructive regulatory framework supports attractive returns and strong rate base growth

Gas Transmission & Midstream

Renewable Power Generation & Transmission

- 900 kbpd serving USGC
- Take-or-pay contracts
- Initiated line fill in November
- ISD: 4Q19

• 497MW Offshore wind project

ENBRIDGE

- Adjacent 112MW expansion
- 20-year fixed price contract
- ISD: 4Q20

\$19B of secured, low-risk capital projects drives near term growth outlook

* Rounded, USD capital has been translated to CAD using an exchange rate of \$1 U.S. dollar = \$1.30 Canadian dollars.

¹ Update to project ISD under review.

² Enbridge's equity contribution will be \$0.3B, with the remainder of the construction financed through non-recourse project level debt

Q3 2019 Financial Performance Adjusted EBITDA

C\$ millions

Performance Drivers:

Liquids Pipelines	 Higher Mainline volumes and IJT Strong downstream pipeline volumes
Gas Transmission	 Absence of EBITDA from Asset Sales New assets placed into service
Gas Distribution	 Higher distribution rate Timing of 2019 rate implementation
Renewable Power	↑ Higher wind resources at N.A. wind farms
Energy Services	↑ Basis differentials
Other	 ↑ Lower administrative costs ↑ Higher realized FX hedge rates

Strong operating performance across business units, driving record quarterly EBITDA

Q3 2019 Financial Performance DCF per share

Per share (C\$)

Performance Drivers:

EBITDA	↑ EBITDA growth (prior slide)		
Maintenance capital	↑ Lower expenditures due to assets sold		
Financing costs	Lower financing costs, i.e. asset sales proceeds		
Current income taxes	Higher taxes on higher earnings		
Distributions in excess equity earnings	↑ Stronger equity distributions and new assets		
Distributions to NCI	Lower distribution to NCI following sponsored vehicle (SV) buy-in		
Share count	Incremental share count from SV buy-in and 2018 DRIP		

Strong operating performance across business units, driving record quarterly EBITDA

DCF per share is a non-GAAP measure. Reconciliations to GAAP measures can be found in the Q3 earnings release available at www.enbridge.com.

Re-affirming 2019 Financial Outlook

Strong year to date performance; Full year DCF/share expected to exceed the mid-point of guidance range

Financial Strength & Flexibility

Consolidated DEBT to EBITDA¹ 6.0x 5.5x Target Range: 4.5x to 5.0x 5.0x 4.5x 4.0x 3.5x 3.0x 2016 2017 2018 2019e 2020e 2021e "Secured-only capital" scenario metrics

Non-Core Asset Sales

	Proceeds (\$B)	Closed
Midcoast G&P Business	\$1.5 (US\$1.1B)	Aug. 1, 2018 🗸
Renewables Power Assets	1.7	Aug. 1, 2018 🗸

2019 Strategic Priorities

Priori	ities	YTD Status
1.	Achieve 2019 DCF guidance range of \$4.30 – 4.60/share	 Strong operating performance across the businesses Full year DCF/share expected to exceed the mid-point of guidance range
2.	Advance Line 3 Replacement	 Canadian segment to come into service Dec. 2019 Minnesota MPUC addressing EIS spill modelling deficiency State environmental permit work ongoing
3.	Advance priority access on Mainline	 Strong shipper support for priority access contract offering Expect to file regulatory application as soon as practical
4.	Extend secured growth	 Secured \$2.5B of new growth capital projects
5.	Maintain balance sheet strength & flexibility	 Q3 Debt:EBITDA of 4.6x on a 12-month trailing basis

Good progress being made on key strategic priorities for 2019

Q&A
