Aquatic Life	0			
Animal Observations or Burrows	2	Chickens, coyote and fox spotted		No
Bird Nests	0			
Trees (Red Willow)	1	Observed Swamp trees		No
Wetlands	0			
Watercourse Crossing	2	Observed Qu'Appelle crossing		No

Additional Observations and Summary of Activities or Concerns

We finally went out on Spread 4 this week. Although it is mostly in the pre-construction phase, we were still able to go down the right of way and map access roads along the way. We were not really going directly on the ROW for the time being, only because the top-soil has not been stripped down yet. Enbridge will be getting their fine wash stations out on the ROW for spread 4 very soon. This coming week the Spread 4 team will be accompanying a few supervisors and some elders from the surrounding reserves. We are going to go right down the ROW and are going to be shown many culturally significant areas. Also they will be showing us rock formations and rare plants. We will be fencing off these areas. I observed a few of these native prairie lands from afar. Hope to get closer to view soon.
