Medicinal or Cultural Plants	0			
Aquatic Life	0			
Animal Observations or Burrows	0			
Bird Nests	0			
Trees (Red Willow)	0			
Wetlands	0			
Watercourse Crossing	0			

Additional Observations and Summary of Activities or Concerns

At the beginning of the week, clean up continued on spread 6, starting off at a pipe yard area by picking up debris and raking up areas which had smaller debris parts such as broken pieces of skids, plastic, damaged rope and other material which was piled up to be later discarded. Moving back onto right of way clean up picking up broken signs, damaged snow fence, skids, repairing wingwalls at roadsides and picking up about one million t-posts. This continued for the rest of the week until we completed spread 6 clean up tour, it was tough with the blast of heat that hit us in mid week, but the crew continued working and the clean up tour was completed by Thursday.

Photos of Sites Visited & Topics Discussed This Week

Pipe yard – raking up smaller pieces in piles

Debris pile – skids

Repairing snow fence around wet land area

Roping off an area where the soil settled over mainline

Removing damaged snow fence

Debris pile
