

SGS MUSCOWPETUNG

ABORIGINAL CONSTRUCTION MONITORING

WEEKLY REPORT

SPREAD 6

JULY 16TH TO JULY 22ND, 2018

Social and Cultural Features

Field Observation	# of occurrences	Description and Mitigation Measures	Mitigation Status	Further Action Required (Yes/No)
Traditional Use Area (hunting, fishing, gathering, trapping)	0			
Rock Formations (rocks of significance, tipi rings, etc.)	0			
Artifacts	0			
Bones	0			
Potential Gravesites	0			

Environmental Features

Field Observation	# of occurrences	Description and Mitigation Measures	Mitigation Status	Further Action Required (Yes/No)
Medicinal or Cultural Plants	0			
Aquatic Life	0			
Animal Observations or Burrows	0			
Bird Nests	0			
Trees (Red Willow)	0			
Wetlands	0			
Watercourse Crossing	0			

Additional Observations and Summary of Activities or Concerns

Line 3 is a 1097-mile pipeline that was installed in the 1960s. extending from Edmonton Alberta to Superior Wisconsin. The line was put into service in 1968.

Enbridge Line 3 Replacement Pipeline consist of 1,031 miles of 36-inch diameter pipeline that began in Alberta with Spread one and is now in process of spread five and six. With Kick, off scheduled for Aug 1st 2018.

Spread six spans 122.7 kilometers

This first week was combined training, acquiring information for site procedures, safety and familiarizing monitors with site route locations. July 16th-18th .ACM from both five and six spread received SGS orientation and training. Project safety orientation facilitated by Banister was conducted on July19th. Bio security training was received by (Summit) environmental, everyone requires this training on site. Stations for cleaning are set up throughout the sites and between every municipal boundary to prevent cross contamination.ACM attended daily safety and construction meetings.

July 20th Observed crews (sweeping) for underground lines. Also, observed surveying for spread 5 Kick off at KP529+100 Travelled pipeline route through to KP 629+100 Observed crews setting fences at KP625+100 SF56.

Photos of Sites Visited & Topics Discussed This Week

Spread five and six ACM travelled to an information/tour of the Chapleau Archeology site at 629+000 SF 53 ACM Teams met with Steve Kasstan (Indigenous Engagement Supervisor) Spread six Indigenous Construction Liaison and spread five and six Construction Specialists.

Enbridge has committed to a pre-construction, mid-construction and post construction tour with First Nations. Previous tours have been concluded throughout the process. Thursday July 26 there will be a Ceremony held and cultural walks on ROW (right of way) The following day there will be bus tours. On August 16th – there is a tour scheduled with sixteen Chiefs

Observed crews (sweeping) for underground lines – (Before excavating land or preparing for construction it is imperative to electronically sweep areas which may contain underground hidden, abandoned or undocumented lines or obstacles.
