

In the Loop: Community newsletter for the Sunrise Expansion Program

March 2026

Welcome to your source for updates on the Sunrise Expansion Program (Project) — *In the Loop*. This month, we share exciting regulatory progress and important next steps as we prepare for potential construction.

In this edition:

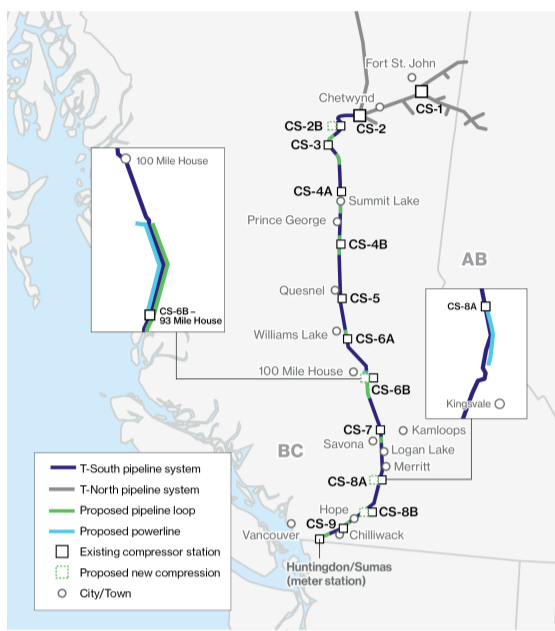

- Project advances
- Community opportunities: Register your interest
- In the community: Lunar New Year Celebration

Project advances

We are pleased to share that the Canada Energy Regulator (CER) recommended approval of this proposed Project on January 30, 2026, concluding that its construction and operation are in the public interest.

The CER's recommendation will now be considered by the federal government in deciding whether the Project should be approved. If approved, the CER would issue a certificate authorizing its construction and operation.

Construction is targeted to begin in Q2 2026, with completion anticipated by the end of 2028. Once operational, the Project will add 300 million cubic feet per day of natural gas transportation capacity to Enbridge's pipeline system, ensuring delivery of affordable energy to our customers.

Map is for illustrative purposes only and not to scale. Project design is under development and configuration of pipeline loops, compressor units, additional compressor station modifications, and powerlines are subject to change.

Community opportunities: Register your interest

As we prepare for potential construction, we are gathering information from community members who may be interested in working on the Project or supporting the workforce.

You can use the Community Opportunities Form to:

- Submit your resume if you are interested in employment opportunities on the Project
- Register your business if you provide goods or services that could support construction
- Share accommodation availability if you have rooms, homes, or RV spaces available to rent

Information submitted may be shared with Project contractors and hiring teams and may also be included in the Community Resource Guide, which helps connect workers and contractors with local businesses and services.

Please note that submitting information does not guarantee employment, business, or rental opportunities. All hiring and procurement decisions will be made by Project contractors.

Please click the "Community Opportunities Form" button to submit your information, or scan the QR code to complete the form.

In the community: Lunar New Year

Chinatown came alive on February 22 as the community gathered for Vancouver's annual Lunar New Year Parade. Families and friends filled the streets to welcome the Year of the Horse, enjoying vibrant lion dances, drum performances, and a joyful celebration of culture, tradition, and community.

Enbridge was proud to serve as the Signature Sponsor of the Chinatown Business Improvement Association's 2026 Lunar New Year celebrations.

Enbridge representatives joined Premier David Eby, Chinatown BIA President Jordan Eng, and Executive Director Joey Kwan in the parade.
