Westcoast Energy Limited Partnership
Sunrise Expansion Program
Condition Filing Index
(to August 21, 2026)

On April 27, 2026, the Commission of the Canada Energy Regulator issued Certificate GC-135 under Section 186 of the Canadian Energy Regulator Act authorizing the construction and operation of the Westcoast Sunrise Expansion Program (C39063-3). Upon the issuance of the certificate, the exemptions granted under Order XG-002-2026 also came into force (C38107-3 and C38914-3). The following table lists the certificate conditions with a running tally of links to condition compliance submissions.

#	Condition Title	Filing ID	Date
1	Condition compliance		
2	Design, location, construction, and operations		
3	Environmental protection		
4	Instrument expiration (sunset clause)		
Prior to Construction			
5	Plan for notifying Indigenous Peoples of condition filings	C38546	March 16, 2026
6	Caribou Habitat Restoration Plan	C38596	March 20, 2026
7	Preliminary Caribou Habitat Offset Measures Plan	C38597	March 20, 2026
8	Forest Management and Old Growth Mitigation Plan	C38600	March 20, 2026
9	Updated Environmental Protection Plans (EPPs)	C38641	March 24, 2026
		C39847	June 17, 2026
10	Wildlife Species at Risk Mitigation Plans	C38606	March 20, 2026
		C39219	May 1, 2026
11	Plan for Indigenous Peoples' participation in construction monitoring	C38611	March 20, 2026
12	Update on employment, contracting, procurement & training for Indigenous Peoples	C39237	May 4, 2026
13	Finalized watercourse crossings inventory	C39144	April 29, 2026
14	Quality Assurance and compliance for the electrical facilities	C39145	April 29, 2026
15	Outstanding Indigenous-led assessments or studies	C39360	May 14, 2026
16	Support for Indigenous Peoples to review Westcoast's condition filings	C39357	May 14, 2026
17	Construction Safety Manuals	C39378	May 15, 2026
18	Construction Emergency Response Plan(s)[1]	C39578	May 29, 2026
19	Socio-Economic Effects Monitoring Plan	C39574	May 29, 2026
20	Schedule and progress of construction of electrical facilities	C39686	June 5, 2026
21	Contingency watercourse and wetland crossings		
22	Fisheries Act authorizations		
23	Section 317(1) consents		
24	Construction Schedule	C39796	June 15, 2026
During Construction			
25	High-potential near misses		
26	Construction progress reports	C40567	August 18, 2026
27	Plan for hydrostatic test water withdrawal and discharge		
28	Plan for Indigenous Peoples' participation in post-construction monitoring		
29	Operational Vegetation Management Plan		
30	Power system protection for compressor stations, substations, and powerlines		
31	Reliability standards		
32	System impact studies prior to energization		

[1] Construction emergency response plans are being filed in advance of construction for defined work scopes; filings to date include C39578 (CS-4A, CS-6A, various crossover sites), C39782 (CS-2B), C39892 (CS-6B), C40064 (CS-8A, CS-8B), C40277 (Pipeline Package 4), C40362 (Pipeline Package 1), C40384 (Pipeline Package 2), C40403 (Access Roads for Crossovers 5L and 6BL), C40542 (Access Roads for Crossovers 3L and 4AL), and C40577 (Pipeline Package 3 and Clearing and Access for Crossover 9L KP 36.7).

#	Condition Title	Filing ID	Date
33	Technical specification updates	C40045	June 26, 2026
Post-Construction and During Operations			
34	Unplanned power line outage of electrical facilities		
35	Condition compliance reporting by the Accountable Officer		
36	As-built electrical drawings		
37	Geographic information system data		
38	Socio-Economic Effects Monitoring Final Report		
39	Wetland Offset Measures Plan		
40	Quantification of construction-related greenhouse gas emissions		
41	Post-construction environmental monitoring reports		
42	Emergency response exercise		
43	Caribou Habitat Restoration Implementation Report		
44	Final Caribou Habitat Offset Measures Plan		
45	Caribou Habitat Restoration and Offset Measures Monitoring Program		
46	Caribou Habitat Offset Measures Implementation Report		
47	Caribou Habitat Restoration and Offset Measures Monitoring Reports
