

Interested in getting on the list?

Enbridge is building a list of local Michigan businesses and service providers that would like to support our contractors in building the Great Lakes Tunnel. Are you interested in getting on the list for this proposed project?

If you would like your business to be included on the list and considered for work on the project, please send an email to: line5info@enbridge.com.

And include:

1. Your business name and address
2. Primary contact with phone number and email address
3. Brief description of services you could provide with quantities available (example: 4 port-o-lets, 15 wash stations, meals for 20 people delivered daily, 15 rooms for lodging, etc.)
4. Identify if you are a diverse supplier and any associated certifications

We will share your information with all potential contractors for the proposed Great Lakes Tunnel Project.

While contractors are not currently accepting proposals from local businesses, Enbridge is compiling this list of businesses and their services to help potential contractors better understand local options as they prepare their proposals for the project.

We look forward to your email and appreciate your interest in being part of the Great Lakes Tunnel Project.
