Line 5
Keeping the wheels turning in Michigan

Line 5 is a 30-inch-diameter pipeline that travels 645 miles from Superior, WI to Sarnia, ON.

Our Line 5 Straits of Mackinac crossing has NEVER EXPERIENCED A LEAK IN MORE THAN 60 YEARS OF OPERATION, and we’re working hard to keep it that way with a robust safety program and regular maintenance.

The average capacity of Line 5 is 540,000 BARRELS PER DAY.

As of July 2014, Enbridge had approximately 250 EMPLOYEES AND CONTRACTORS in Michigan.

Line 5 meets increasing demand from Michigan, Ohio, and Ontario refineries for light crude oil produced in the Bakken region of North Dakota and eastern Montana.

Line 5 also delivers natural gas liquids, including propane, which are used to heat homes, make vehicles and tires for Michigan’s renowned auto industry, and produce consumer goods like computers, clothing, and medical equipment.

Enbridge taxes in 2014 across Michigan:

- PROPERTY TAX: $18.3 million
- SALES AND USE TAXES: $4.1 million

Tax revenue that is used for schools, transportation, community projects, and other services that help sustain our quality of life.
